About the Database

The DutchCulture Database collects and analyzes data on Dutch artists and organizations' international cultural activities. Our Database is based on information gathered from embassies and consulates, cultural foundations, arts organizations, and individual artists. While we aim to be as comprehensive as possible, our database is not an exhaustive list of all activities. We would like to thank our partners who help gather and provide information for the database. If you have questions or comments or would like more information please get in touch (contact information on next page).
